## Preface

The following conventions are used in this document:

<b>Bold</b>	Used for information that is typed, pressed, or selected in executables and instructions. For example, select <b>connect to host</b> .
<i>Italics</i>	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
<u>Underline</u>	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
“Quotation Marks”	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example “Data-Generation Report.”
Courier Font	Used to denote anything as it appears on the screen or command lines. For example <code>tar xvf dev/rmt/3mm</code> .
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

## 1. Installation Procedures

### 1.1 Scope

These Installation Procedures (IP) provide a quick reference for installing the Netscape SuiteSpot Administrator (NS\_Admin) segment for the Defense Information Infrastructure (DII) on Hewlett-Packard (HP)-based machines.

#### 1.1.1 Identification

This section contains identification information for the NS\_Admin segment:

Segment Name:	Netscape SuiteSpot Administrator
Segment Type:	SOFTWARE
Prefix:	NSADM
Home Directory:	<i>/h/NS_Admin</i>
Required License:	None.
Version Number:	1.0.0.0
Platform:	HP (UNIX) Workstation/HP-UX 10.20

#### 1.1.2 System Overview

This section contains system overview information for the NS\_Admin segment:

<b>Purpose:</b>	NS_Admin is to provide icon access to the SuiteSpot admin servers.
<b>Usage:</b>	This NS_Admin segment can be installed on any machine that is hosting SuiteSpot servers, and used by administrators.
<b>References:</b>	None.

This page intentionally left blank.

## **2. Referenced Documents**

None.

This page intentionally left blank.

### **3. System Environment**

#### **3.1 System Requirements**

##### **3.1.1 Hardware Requirements**

The following HP hardware is necessary to install the NS\_Admin segment:

- C HP-UX 10.20
- C 10 KB of disk space
- C 32000 KB of memory

##### **3.1.2 Operating System Requirements**

The HP operating system must be at least HP-UX 10.20 to install the NS\_Admin segment.

##### **3.1.3 Kernel Requirements**

The following DII COE Kernel is required to install the NS\_Admin segment:

DII COE Kernel V3.2 for HP-UX 10.20

#### **3.2 System and Site Preparations**

##### **3.2.1 System Configuration**

Install the Netscape SuiteSpot Servers segment and Netscape Web Browser segment as directed.

##### **3.2.2 Operation System Preparation**

None.

##### **3.2.3 Tape/Disk Preparation**

None.

This page intentionally left blank.

## 4. Installation Instructions

### 4.1 Media Booting Procedures

None.

### 4.2 Installation Procedures for the NS\_Admin Segment

This section describes the procedures required to install the NS\_Admin segment on DII HP machines.

Step 1:       Select the **Netscape SuiteSpot Administrator** label from the COEInstaller's Select Software to Install window and click the **Install** button.

---

**NOTE:**       While no other segment is required for proper installation of the NSADM segment, the icons created by this segment will not run their associated Netscape Administrative servers unless the following has occurred:

- 1)       A Netscape SuiteSpot Server component (e.g., Netscape Enterprise Server) has been installed.
  - 2)       The Administrative server associated with the server component installed (see #1) has successfully installed. (Netscape Server components automatically install their respective admin server if it is not already present.
- 

#### 4.2.1 De-Installation Procedures

To de-install the NS\_Admin segment, de-install via the COEInstaller.

### 4.3 Installation of Upgrades

None.

### 4.4 Installation Verification

Execute the *Security Manager* and see if the applications "Sspot Administrator," "v2 Sspot Administrator," and "Start Admin" are available to the System Administrator profile.

#### **4.5 Initializing the Software**

Not required.

#### **4.6 List of Changes and Enhancements**

Not applicable.

#### **4.7 Important Considerations**

None.

## **5. Notes**

None.

This page intentionally left blank.
